"Meta Stern Lilienthal was one of the most important journalists among women in the Socialist party. She produced several pamphlets, scores of leaflets and short essays, and edited a women's page in the "New Yorker Volkszeitung" and a "Votes for Women" column in the "New York Call." Her autobiography, however, does not focus on her political accomplishments; it relates, often in charming detail, her childhood memories of New York City. Nevertheless, Lilienthal provides scattered insights into the German immigrant radical milieu of the late nineteenth century, for her parents were ardent Socialists and prominent activists in the Socialist Labor party."

Perhaps the first published first-person narrative by an HIV+ gay man in Japan; it was a momentous thing for

Oishi to have his photo on the front cover and to use his actual name. Book discusses his upbringing, childhood teasing for being girlish, learning about AIDS in 1983 when it was viewed in Japan as a foreign problem. Discusses early participation in Occur (the earliest and biggest gay activist organization) and how this changed his ideas about being gay. Discusses the 1990 case of "Seinen no ie" (in which Occur successfully sued the city of Tokyo for its refusal to allow Occur to continue using a public lodging facility because other male visitors would be uncomfortable sharing facilities with known homosexuals). Learns HIV+ status in 1991, just before going to US; discusses more permissive, tolerant atmosphere in US, and describes the gay community in San Francisco. Discusses American response to AIDS, especially in San Francisco. Much on his inspiring friendship with AIDS activist George Choi (d. 1993) who advises him to stop thinking only of dying. Comes out as HIV+ to his mother, and is comforted by her assurance that she will fight the disease with him. Goes to the Pride parade in SF in 1992 with 20 Occur members. Enjoys the sense of liberation, the ability to express oneself as gay without any negative consequences. Learns the importance of developing one's own philosophy about AIDS activism. Meets Don (Duganier?) in 1993, another AIDS activist; decides he must be out about his HIV+ status. Goes to 9th Intl AIDS Conference in Berlin, 1993 where he gives speech at closing ceremony coming out as an AIDS activist, thanking his gay, lesbian and PWA friends. Goes to NYC for Stonewall in 1994, and is surprised by the lack of presence from Asian countries. Appendix contains a series of brief comments on nutritional, healthcare, and other needs for PWAs. Points out the need for healthcare to be streamlined for PWAs - to no longer require PWAs to get all of their treatment, no matter how routine, at designated hospitals. Importance of not merely relying on doctors' advice, but on deciding for oneself.

Patterson, the first president of Local 65 of the United Steel Workers of America and picket captain during of the 1937 strike against Republic Steel that climaxed in the "Memorial Day Massacre," records in retirement his memories from a lifetime of activism in pursuit of industrial democracy. Though the style is perhaps closer to the shop floor than the literary salon, the historical value of the text is bolstered by the fact that his detailed recollections were aided by documents of the time; the copy of this memoir held by the Chicago Historical Society has been cited by various scholars working on the period. Not found in OCLC; we do not know how the present typescript with emendations compares to the CHS version. The present copy was originally titled "South Chicago Steelworker" and altered in pencil to "Embryo - a steelworker," with the title used in our description taken from the more polished title of the CHS copy.
